AI Content Detector & Paraphraser

With over 99% accuracy and AI detection coverage that includes ChatGPT and Bard, you can rest assured that you're fully covered with the market's most comprehensive AI detector.

∩ Netus AI

Netus AI detector is designed to identify and differentiate between human-written and AI-generated content with 99% probability. We're utilizing the same technology employed by Turnitin. It evaluates textual patterns, context, syntax, and semantics which helps to identify differences of AI-generated content. As AI content generation evolves, we continue to stay ahead of the curve. For the highest level of stealth we suggest that your content passes V1 and V2 detectors.

Our students can get around the detection ☹

Advanced AI Detector and Humanizer

Rated #1 Best AI Detector by Forbes! Use our AI detector tool to check if your text will be detected as AI-written content. Our AI text humanizer enhances your content to match the quality of human writing. Clicking "humanize" removes AI detection and ensures your text will bypass AI detectors.

TURNITIN AI detection !!!!!!

ToK/EE

Hello. i really need help. i'm currently doing my TOK exhibition commentary and turnitin is being so annoying. even tho my teacher has seen me write my commentary infront of her, she still won't believe me and chooses to believe the AI score, i currently have a 67% even tho i've fully written the thing myself- i still don't understand how this thing work. i've rewritten 3 times, changed words 5 times and restructured my essay twice just to try to get rid of it but the score kept getting higher. my commentary is due monday and i really need help with trying to fix this issue. so far i've contacted turnitin and explained the issue since my teacher has decided to be an ignorant person but i need more tips on how to get rid of it.

please help ASAP!!!!

Challenges

There is no point in banning the technology; it is here to stay.

There is no easy answer. The battle will be never ending.

Solutions

Use of AI/plagiarism detection tools	Training and awareness programs	Appropriate referencing
• TurnitIn, Copyleaks, GPTZero • Help detect combinations of AI and human use	• For both students and educators • Ethical implications of AI use • Importance of academic integrity.	• Poor referencing, paraphrasing and copying text constitute malpractice • Explanation of how it has been used
